TERMS: \$2 per 1000 deposit with order, balance C. O. D.

## PLANTS FOR EARLY FALL PLANTING IN 1956

Mr. S. E. Mullins, county agent (farm advisor) at Chattanooga, Tenn., after searching for several years for a better place to grow strawberry plants, has secured 25 acres of good sandy loam soil in Colorado where he will grow plants of Lassen, Shasta and Utah Centennial for us under overhead irrigation. This land has been in alfalfa for several years, making it ideal for growing plants.

▶ Mr. Mullins says plants will be matured there and fully dormant and ready to dig by Oct 15, fully a month earlier than in Tenn., and can be shipped to you as soon as you wish after that, insuring early planting and the highest yield of fruit the following season.

Another thing, in Tenn. they get hot nights during August which stops growth of plants, but in Colorado nights are cool so plants will keep right on growing.

▶ For his Colorado planting we have secured some of the best plants of Lassen and Shasta to be had, certified, virus-free plants, meeting all the rigid requirements of the State Certification regulations, insuring you of plants of the very highest quality.

A grower in Santa Rosa wrote June 16, 1955: "We prefer the plants from Mullins as we are quite satisfied with the ones we got through you this spring." They got 87,000 more from us in fall of 1955. A grower in San Martin wrote Feb. 28, 1955: "The plants that I have received from Mullins are the best that I have seen yet this year. I am very much pleased with them." A grower in Modesto and Salinas wrote Jan. 27, 1955: "We appreciate the way you have been doing business with us and we hope to favor you with future orders."

✓ **RED RICH STRAWBERRY.** See our 1954-55 CATALOG for photo on cover and description on pp. 4 and 5. Also many growers' enthusiastic reports on RED RICH on pp. 7-14 inclusive. Here are some more reports:

**WENATCHEE, WASH.:** "We think no berry's as fine as RED RICH. Hope we can get the 250 plants this spring. This is the third year we have ordered from you."

**MONROVIA, CALIF., 12/7/55:** "Am just getting some ripe berries from the RED RICH plants you sent me in August. They certainly have a nice flavor."

**HANFORD, CALIF.:** "To my opinion RED RICH is far superior to any I ever planted. We raised many berries in Nebraska, had at one time 17 to 18 acres, our main crop a cross of Brandywine x Sample. We also had Senator Dunlap and Marshall, but none could compare with your RED RICH."

**LONGVALE, CALIF.:** "I rate RED RICH runners in a class by themselves, for they bore more, bigger, tastier berries than the parent plants of Wayzata and some of the other berries in the patch. And the parent plants of RED RICH set last spring excelled everything else in my patch and as far as I know everything else in the community—bigger, richer and more berries consistently thruout the summer."

Plants guaranteed: any replacements mailed free of charge.

**PYRAMID** saves space and is convenient for caring for plants and picking berries.

## ✓ SPARKLE RED RASPBERRY

See pp. 22 & 23, 1954-55 Catalog

Mr. Ferguson says that through August, 1955, he sold \$6 to \$8 worth of Sparkle raspberries per week at wholesale from 60 plants set out in Jan., 1955. There were still plenty of berries but he quit picking when the terrific Sept. hot spell struck. The grocer who handled his berries told me the only thing wrong with Mr. Ferguson was that he didn't have enough berries! He said they are the best raspberries he ever handled, that they're sold before they are brought into the store.

Mr. Ferguson said I should have been there in June, that the berries of the first crop, from the older plants, were "as big as plums!"

### PRICES OF PLANTS, PREPAID

5	10	25	50	100	500	1000
\$2.50	\$4.50	\$9.00	\$17.00	\$30.00	\$125.00	\$225.00

## ✓ OLALLIE BERRY

See p. 15, 1954-55 Catalog

Olallie is outstanding in yield, keeping and shipping quality, resistance to verticillium wilt, sunscald, adverse soil conditions, and is earlier than Boysen or Young so brings top prices. Plants limited and demand strong, so they are offered subject to prior sale.
